“ I have been flooded with memories of you as a little boy, I smile when I remember you coming over almost everyday to play with Chase You would knock on the door and ask for Dase. Learning to swim at our house, learning to ride bikes. Your birthdays were only 1 day apart. I know how much Chase meant to you and you to him. You have touched a lot of hearts and will be missed. “ Andy  
when I got the news you had past away I was in complete shock I didn't believe I thought maybe someone had mistaken you for someone else but sadly they weren't. I couldn't help but to burst out into tears. You are the most amazing man and friend that I could ever have in my life. I will love and cherish our memories that we had together and I will forever miss you more then words can express. You were so loving, caring, funny, smart, and outgoing. I will miss your voice and your laughter and hugs and just being by your side talking away about anything and everything. You will forever be in my heart I love you and miss you soo much Andy. Until we meet again in my heart is where I'll keep you my friend. To your father and mother and the rest of your family you all are in my thoughts and prayers. I am so sorry for all of your loss. We all truly lost an Angel .  
Andy would give you his shirt off his back and always make sure you made it home safe and you never were hungry and always gave you his best advice on things and wouldn't take any crap from anyone he was very protective and like I said very loving and caring. I will miss you coming over and me going over to your place as well its still hard for me to believe your gone. God only takes home the best first. love you bunches Andy

“ To my Cousin Andy....We spent a lot of time together as kids. Every summer or family gathering when I would stay up there, you would always find some cool new way to get us in trouble :-) Weather it was climbing on Grandma's roof, or jumping on our bikes trying to make the ride to Hogs back....To your cousin from Sacramento, those were the best times. We would always take long rides with Grandma "and her music" :-) you always loved her music!! Family reunion's were the absolute best....setting up camp, scary stories, rattlesnakes by the restrooms.....YIKES!! Thank you for the memories....our childhood years were sweet & innocent, and I'm glad to have shared them with you...They were special times to me. Love & light to you on your journey Cousin.....
