“ I was at home the day Claudia was born, waiting. She was a beautiful baby. She had dark hair, and a lot of it. She was so precious, but had a mind of her own. She had strong faith, and was always talking about how much she loved God. She helped anyone who needed help. She was a loving person, and when my brothers and sisters picked on her, teased her, she would come to me for protection. We would hang out and talk. She loved the Bible. She loved Jesus, and now she is in His loving arms, and He will take care of her. I will always miss her and Sis Barbara., but Claudia must have needed to leave us to be with Barbara., four months after Barbara left us. They both are now helping God take care of their families. We know you are happy with our family in Heaven. Wish everyone a Merry Christmas from all of us. And hug everyone. Please pray, we really need them. I love you baby Sis'.

LL

It has been over a year now, and we all still feel the pain. I especially miss my prayer partner. I know you are still praying in Heaven for all our needs. I miss your smile, and your little giggle. I had almost all your family with me for Christmas. We had a good time, but the holidays are always very hard. I love you Sis, but I know it is easier where you are. I know you will be waiting for us. We miss you.
