“ He was my very best friend we had so many memories it's hard to pick just one I remember when James his mom and her boyfriend at the time John we called papasan we all use to go scrapping all the time and I remember we were in a field out back of their house and I slept and fell on my tailbone and had a corner piece of concrete hurt so bad I couldn't walk James he helped me back home and took care of me the whole entire day you're the sweetheart you loved everybody and wanted to get rid of everybody it's going to suck not talking to him everyday I love you James always and forever sweet dreams and nightmares love I'm telling me again

He was my stepfather but not just that he was my best friend staying up late to tell me stories and helping me when I needed it we bonded immediately when we met and I can't express how much I really miss him I seen him the morning 4 hours before it happend he might have not been the best role model at times but he was definitely my favorite theres not one person I've ever met that was like James and there never will be I just wish I could sit down and hear one more story or spark one up just 1 more time..LLJB🕊️ forever in my thought and dreams😞
