“ *She was my best friend in high schools and we went to Europe after graduation. I met my husband through her and my husband’s friend became her husband. She went on my elopement and she and Michael stood as witnesses. She was quite the artist and sent me letters contained in hand drawn cards. Throughout her son’s school years she sent his annual picture. She was so proud and thankful for him. He was always a very loving supportive son. She will be missed!*
