“ Mike worked at Home Depot with my brother Don, when Don found out he had no where to live, he brought him home and Mike was there until the end. He found what he always wanted, a home ,with a surrogate mother, a brother., and all the trappings of a ranch. He loved it, Mike had a great life until he was suddenly taken, he will be sorely missed, rip mike.

“ I met Michael in high school and my thoughts of him were he was so very good and kind, and that stands true to today. He always treated me as one of the group although I was the annoying little sister of them. Michael always had a kind word for everyone and absolutely did not know a stranger. Michael loved his friends and we love him, he will truly be missed.
