“ Well, I was saddened to read about beautiful Shani. I met Shani my first year working for Tehama County Department of Ed. I was assigned to Corning High. I loved helping Shani with her education. There were challenging times because sweet Shani could be oh so stubborn. She could also stare a hole right through you. However these events only lasted a few minutes compared to the hours of pleasure Shani brought into a High School class. I admired the way her dad would always take care of her needs, regardless of what she needed. Her dad was always the laughter in Shani's wants and school needs. Remembering Shani means remembering her shyness, her boldness, her gentleness and her vulnerabilities. I don't know where she went after graduating high school, I often thought of that entire class of high schoolers. I know Shani will be at peace, she did not have a mean streak in her body. For me, the real shocker was her age. I had not realized that entire class is now in their 50's. To me, I see Shani at a young teenager and I will always hold those times at Corning High near and dear to my heart. Shani and her dad are together again, taking care of each other. I loved them both. I was blessed to know them both. I will cherish those memories from Corning High. R.I.P. Shani, heaven has gained a VERY SPECIAL ANGEL. 🙏💜❤️👍💙💖😭
