“ *My love I miss you Soo much you will always be the love of my life and your wife always and forever my hunny bee the amo contodo mi corazon* ”

Como alguien que compartió su vida con él, solo puedo imaginar el dolor que debes estar padeciendo, ya que es bastante doloroso para mí después de haber dejado esa vida hace siete años. Rezo para que no haya sufrido y haya llegado al reino de Dios, y ahí lo espera hasta que vuelva a ver a todos.

“ *I can still hear your laughter—
that goofy, full-hearted sound
that could turn the darkest days into light.
You never did anything halfway,
whether it was making a joke
just to see someone smile
or carrying the weight of the world
on your tired shoulders.*

*Your spirit was wild and beautiful,
untamed by the pain that tried to break you.
Even in your torment,
you still found ways to be kind,
to love, to give, to be there—
even when you weren't sure how to be there for yourself.*

*You hid your hurt behind that smirk,
masked your sorrow in laughter,
but I saw you.
I saw the depth of your heart,
the way you carried more than you should have,
the way you gave more than you had.*

*And now, I can only pray—
that the weight is gone,
that the torment has lifted,
that in your last moments,
grace found you, love surrounded you,
and peace, at last, became yours.*

*I miss you.
I always will.
But I hold on to the hope
that you are finally resting,
free from the pain
that this world never let you escape.*
